

ROYAL GEORGE THEATRE – CONSTRUCTION COMMUNICATIONS

February 3, 2026

On February 2, we shared this construction update and next steps with homes and businesses near the Royal George Theatre.

Upcoming work on Victoria Street

We have just received the Town's approval for the demolition of the buildings at 178 and 188 Victoria Street to begin. Tree removal will start this week (February 2-6) and the demolition process will begin as early as February 6, but likely on February 9. We anticipate demolition will take approximately 2-3 weeks, but this could vary given the weather. Construction will take place primarily Monday – Friday from 7am - 7pm, with occasional Saturday work as required.

We are still working with the Town on next steps, but we expect the demolition of the Royal George Theatre and adjacent box office/costume shop building will start in early April.

Temporary fencing has been installed around the perimeter of the properties to keep the area safe and secure. More permanent and artful hoarding will be installed post demolition.
